## **To Whom It May Concern**

I am pleased to write this letter of recommendation for **Muhammad Awais**, a final semester student in the **BS Computer Science (BSCS)** program at National University of Modern Languages, Islamabad. Mr. Awais is currently working under my supervision for his Final Year Project.

Muhammad Awais is an **exceptionally dedicated and analytically strong** student, demonstrating a focused passion for advanced Artificial Intelligence. For his Final Year Project, a **Traffic Monitoring and Management system**, he successfully handled the complex AI component, specifically implementing the **YOLO model** for real-time traffic detection and monitoring. This required deep analytical skills and the ability to translate complex algorithms into functional code.

I **strongly recommend** Muhammad Awais for admission and scholarship opportunities in your MS AI, Generative AI, or Agentic AI programs. His established foundation in computer vision and his specialized interest in next-generation AI will lead to significant contributions in your academic environment.

Please do not hesitate to contact me for any additional information.

**Sincerely,**

**Muhammad Naveed Alam (Former HOD)**

Assistant Professor

Department of Computer

National University of Modern Languages, Islamabad
